

stopUPS.org

Dear Mayor Spano, Councilman Merante, Chairperson Kozicky, and Commissioner Pici

I _____,

(print name and sign)

residing at _____

recognize that the actions proposed at 555 Tuckahoe Road may result in significant environmental and quality of life impacts and **DEMAND** that the Yonkers Planning Board declare as **Positive Declaration** and have an **Environmental Impact Study** prepared.

A comparison to other nearby UPS locations with similar capabilities reveal that UPS or other logistics carriers **DO NOT** have heavy industrial operations located in a residential neighborhood. In the NY-Metro area, **UPS and similar carriers are located in industrial parks zoned for such activity and not surrounded by residential neighborhoods.**

Concerned residents did not oppose the recently constructed FedEx facility, also on Tuckahoe Road, as that facility **is located within an industrial zone and not surrounded by residential neighborhoods.**

However, to put it simply, to locate the kind of operations proposed by UPS at the 555 Tuckahoe Road site, in the middle of our residential neighborhood, is **ABSURD!** The Yonkers Planning Board has yet to demand that an Environmental Impact Study be performed, thereby potentially **robbing our rights under the law and avoiding our formal input into the fair study of our concerns!**

Also, we are **opposed** to the planned **refueling depot** in our neighborhood and recognize that that a refueling depot is **NOT** a listed permitted use for the 555 Tuckahoe Road zone.
